

EZ Care Cream

ID Main Emulsifier / EZ.001
pH-value 5.0 – 5.5
Viscosity 26.300 mPa.s Brookfield DV2T, Spindle 93, 5 rpm
Product form O/W

Ingredient	INCI-name	% w/w	Supplier
1 Deionised Water	Aqua	63.10	several
Glycerin	Glycerin	3.00	several
Sisterna EZ Base	Sucrose Distearate, Sucrose Stearate, Cetyl Palmitate, Cetearyl Alcohol, Behenyl Alcohol, Sclerotium Gum, Xanthan Gum	7.00	Sisterna
2 Sunflower Oil	Helianthus Annuus (Sunflower) Seed Oil	5.00	several
Caprylic Capric Triglyceride	Caprylic Capric Triglyceride	5.00	several
VS - Olive Squalane	Squalane	5.00	EFP Biotek
Avocado Oil	Persea Gratissima (Avocado) Oil	5.00	several
Rapeseed Oil	Brassica Campestris (Rapeseed) Seed Oil	5.00	several
Dermofeel Toco 70 Non-GMO	Tocopherol, Helianthus Annuus (Sunflower) Seed Oil	0.50	Evonik
3 Euxyl PE9010	Phenoxyethanol, Ethylhexylglycerin	1.00	Ashland
Jasmin Orchid 336638	Parfum	0.40	Luzi
4 Citric Acid (10% Aq. Sol.)	Aqua, Citric Acid	q.s.	several

Production method

1. Heat water of (1) to 75°C and while stirring add Sisterna EZ Base. Stir until homogenous.
2. Heat (2) and add to (1) while homogenising with high shear for 3 minutes.
3. Cool down to 40°C while continuously stirring and add (3) to (1+2) while homogenising shortly.
4. Cool down to room temperature under continuous stirring and adjust pH with (4) if necessary.
